Mayerfeld Consulting

Dear Sir/Madam

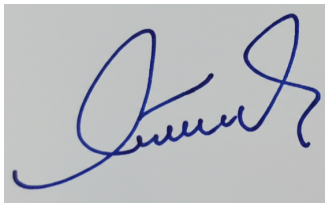
I'm writing to apply for the Frontend Developer Internship at Mayerfeld Consulting. I was drawn to this role because of your focus on practical, decision-focused interfaces rather than purely visual design.

I have a foundational understanding of HTML, CSS, and JavaScript and have been learning React through small projects. I'm still developing my skills, but I can explain the structure of what I build and I'm interested in how interfaces can make complex information clearer for non-technical users.

I'm comfortable learning through feedback and iteration, and I value working closely with others to translate requirements into usable features. I'm organized, dependable, and eager to gain real-world experience in a setting where frontend work supports meaningful business and analytical needs.

Thank you for considering my application. I will look forward to hearing from you.

Sincerely,



Kidus Girma
Addis Ababa, Ethiopia
